HARVARD CELEBRATES EARTH DAY!

The Office of Sustainability will be hosting a home and office FreeCycle on Monday, April 22nd as part of Harvard’s Earth Day event. Due to impending rain, the FreeCycle will be held indoors—inside the Science Center. (All other Earth Day events will be held in the Harvard Commons, at the Smith Campus Center.) The FreeCycle will run from 12-2pm, and they will be collecting donations starting at 9am. Donations from people’s homes and offices are welcome. Please feel free to donate any lost and found items.

Over at the Smith Campus Center, there will be a Secure and Sustainable Electronics recycling station managed by HUIT, as well as a Fix-it clinic and free bike tune-ups. There will also be live music, featuring acoustic rock/folk/blues duo Willie T & Doctor X (aka Bill Santoro & Michael Higgins) from 12-1 pm, followed by Saul Levin (singer/songwriter) from 1-2 pm.
